ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

FIRST NATIONS WATER RIGHTS REPORT

BAND: Spallumcheen

ADDRESS: PO Box 430, Enderby B.C., V0E 1V0

CHIEF: Cindy Williams

PHONE: 838-6496 **FAX:** 838-2131

AFFILIATION: Independent

LOCATION:

The Spallumcheen Band occupies three separate reserves in the Interior Plateau Region.

The three reserves are:

- ¥ Enderby 2 - a 2,267-hectare reserve located near Enderby, along the Shuswap River.
- ¥ Salmon River 1 - a 1,559.3-hectare reserve located on the right bank of Salmon River, west of Enderby 2 and south of Salmon Arm.
- ¥ Sicamous 3 - a 78.9-hectare reserve located south of Sicamous, on the west bank of Mara Lake.

The most recent population figures from the Ministry of Finance show the Spallumcheen Band to have a population of 313 persons living on reserves as registered members. It's total population, including registered and non-registered members living on-reserve, on crown land and off-reserve is 580.

Within the Interior Plateau the Spallumcheen reserves lie at elevations ranging from 1200 feet to 3500 feet above mean sea level, and experience climate ranging from an average daily temperature of -10 degrees centigrade in January and up to 20 degrees centigrade in July. The average annual rainfall for this area is 30 - 50 centimetres.

Water courses of significance include:

- ¥ Moses Brook, which is located in the southeast section of Enderby 2.
- ¥ Shuswap River, which flows northwest, through Enderby 2, and drains into Mara Lake.

WATER ALLOCATIONS:

There is no record of any allocations of water made by the Indian Reserve Commission with respect to the Spallumcheen Band. Similarly, there is no record of an allocation by an Order in Council of the Lieutenant Governor in Council, nor any orders of the Board of Investigation. However, water rights of the Spallumcheen Band have been recorded or affected by two actions of government over the years:

1) Granting of water licences from Federal Government or other parties' applications for licences for the use of water on reserves.

2) Actions to amend rights under the licence pursuant to provisions in the *Water Act.*

HISTORY, CURRENT STATUS, AND NOTES:

No indication has ever been made of any water licences having been granted to the Spallumcheen Band with respect to Salmon River 1 and Sicamous 3. In addition, no evidence is available to indicate that any allocation of water rights to these reserves has ever been intended.

The history of water rights, the current status of rights, and notes for the Spallumcheen Band with respect to the water sources for Enderby 2 are as follows:

ENDERBY #2

Moses Brook

History:

Jan 31, 1928 The Comptroller of Water Rights issued Conditional Water Licence 9444 to the Superintendent General of Indian Affairs in accordance with an application filed by an Indian Agent. This licence was given a date of precedence of February 17, 1926, and authorized the diversion of 10 acre feet of water a year from Moses Spring for the irrigation of 5 acres of a portion of Spallumcheen Indian Reserve No. 2, situated near to the northwest corner of Lot 105, Osoyoos Division of Yale District, provided that of this quantity 500 gallons a day may be used throughout the whole year for domestic purpose.

Aug 20, 1936 The Comptroller of Water Rights issued Final Water Licence 9767 to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 9444, was given a date of precedence of February 17, 1926, and authorized the diversion of 10 acre feet of water a year from Moses Brook for the irrigation of 7 acres of a portion of Spallumcheen Indian Reserve No. 2, situated near to the

northwest corner of Lot 105, Osoyoos Division of Yale District, provided that of this quantity 500 gallons a day may be used throughout the whole year for domestic purpose.

The Engineer's Report for Final Water Licence 9767 indicated that the source authorized under the licence would be better identified as a brook rather than a spring.

Current Status:

Final Water Licence 9767, in the name of the Spallumcheen Band is the only active licence on Moses Brook. There is no information on file with respect to the exercise of rights under this licence.

Notes:

1. There is no additional information with respect to the water rights of the Spallumcheen Band on Moses Brook.

Shuswap River

History:

Apr 17, 1967 The Comptroller of Water Rights issued Conditional Water Licence 32173 to Eelke H. and Margaret A Hoekstra, lessees, in accordance with their application. This licence was given a date of precedence of November 2, 1965, and authorized the diversion of 10 acre feet of water a year from Shuswap River for the irrigation of 10 acres of Lot 2 of Block 1, Enderby Indian Reserve No. 2, Kamloops Division of Yale District, Plan M505.

Dec 15, 1970 The Comptroller of Water Rights issued Final Water Licence 21391 to Eelke (Eric) H. and Margaret A. Hoekstra. This licence, issued in substitution of Conditional Water Licence 32173, was given a date of precedence of November 2, 1965, and authorized the diversion of 10 acre feet of water a year from Shuswap River for the irrigation of 10 acres of Lot 2 of Block , Enderby Indian Reserve #2, Kamloops Division of Yale District, Plan M505.

Jan 2, 1975 The Comptroller of Water Rights issued Conditional Water Licence 43512 to the Minister of Indian and Northern Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of October 22, 1973, and authorized the diversion of 400 acre feet of water from Shuswap River for the irrigation of 400 acres of Blocks 1 to 5 inclusive, Enderby Indian Reserve #2, Kamloops Division of Yale District.

The Minister of Indian and Northern Affairs had originally applied for the right to divert 700 acre feet of water a year; however, a lesser quantity was authorized with the issue of Conditional Water Licence 43512 as being sufficient for the area to be irrigated.

Current Status:

There are a total of 227 licences and 3 applications on Shuswap River, below Mabel Lake.

Final Water Licence 21391 (68th in priority) and Conditional Water Licence 57023 (135th in priority) are the only active licences on Shuswap River for the benefit of the Spallumcheen Band. Final Water Licence 21391 is still held by a lessee. Conditional Water Licence 57023 is recorded in the name of the Band and there is no recent information on filed with respect to the exercise of rights under this licence.

Water Survey of Canada reported streamflow records from four different gauging stations on Shuswap River. These stations are Shuswap River at outlet of Mabel Lake (Station 08LC019), Shuswap River at outlet of Sugar Lake Reservoir (Station 08LC018), Shuswap River near Enderby (Station 08LC002) and Shuswap River near Lumby (Station 08LC003). Station 08LC002, Shuswap River near Enderby, is the closest station to Enderby Reserve 2. This station's streamflow records, dating from 1911 to 1936 and from 1960 to 1990, reported a low mean monthly flow of 31.5 cubic metres per second in February, increasing to a high in June of 288 cubic metres per second.

Notes:

1. A lesser quantity of water was licensed under Conditional Water Licence 43512 than what was applied for by the Spallumcheen Band.

OTHER INFORMATION

Groundwater Records:

Review of records of the Groundwater Section finds evidence of four wells on Salmon River Reserve 1. No groundwater records could be found for Enderby 2 and Sicamous 3. Three of the wells on Salmon River 1 yield small amounts of water, ranging from 5 gallons per minute to 40 gallons per minute, and one well yields 550 gallons of water per minute. The extent to which these wells are utilized at this time is unknown and as provision of this information is voluntary, it can not be assumed to be complete.

Municipal Water Sources:

The proximity of the Enderby Reserve 2 to Enderby and Sicamous Reserve 3 to Sicamous, presents the potential for water supply to theses reserves via a municipal water system.

The City of Enderby has waterworks licences to obtain water from Brash Creek and Shuswap River. Reports on water consumption in 1994 indicate that the Village experienced a peak daily demand of 1,200,000 gallons, well over their authorized maximum daily allowance under their licence; however, their annual demand is within licensed rights.

The District of Sicamous has licences to obtain water from Wiseman Creek, Mara Lake, Shuswap Lake and Sicamous Narrows for waterworks purposes. Reports on water consumption in 1994 indicate that the District experienced a peak daily demand of 1,200,000 imperial gallons, well over their authorized maximum daily allowance under their licence and above their annual licensed rights. However, the District does have an application on file for the right to divert an extra 100,000,000 gallons of water a year from Sicamous Creek for waterworks purposes. If this application is approved the District's licensed rights would exceed their annual demand.

The potential for water supply from a municipality to Salmon River Reserve 1 is limited, as there are no municipal water systems in the proximity of this reserve.

Water Protection Records:

The Water Protection Section has record of a dyke along Shuswap River and Fortune Creek, which border Enderby 2. There is also record of 0.19 kilometres of bank improvement along Salmon River, which flows along the western border of Salmon River. The Spallumcheen Band maintains both the dyke and the bank protection.

Summary of Water Rights Record

PROVINCE OF BRITISH COLUMBIA.

WATER RIGHTS BRANCH.

DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE.
(IRRIGATION.)

Appurtenant to 5 acres of the portion of Spallumcheen Indian Reserve No.2, situated near the NW corner of Lot 105 Osoyoos Division of Yale District.

WHEREAS THE SUPERINTENDENT GENERAL OF INDIAN AFFAIRS, whose post-office address is Ottawa, Canada.

as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use water in the manner hereinafter set out, and has taken all the preliminary steps required of such applicant under the "Water Act" prior to the issue of this licence, and is, under the said Act, entitled thereto:

Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the licensee hereunder the right to take and use water under the following terms and conditions:—

(1.) The source of the water-supply is Moses Spring, located as shown in the exhibit marked "A" hereto attached.

(2.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(3.) The date from which this licence shall take precedence is 17th February, 1926. 9467

(4.) The purpose for which the water is to be used is irrigation and incidentally domestic use.

(5.) The maximum quantity of water which may be diverted for use upon the lands mentioned in clause (7) hereof when all of the said lands are under irrigation is, until lawfully altered 10 acre-feet per annum, and such additional quantity as the District Engineer may from time to time determine should be allowed for seepage and evaporation; and the maximum quantity which may be used on any acre of the said lands in any year is 2 acre-feet: Provided that of the said 10 acre-feet there may be used 500 gallons of water a day throughout the whole year for domestic purpose.

(6.) The period of the year during which the water may be used is for irrigation is 1st April to 30th September.

(7.) The area and description of the lands upon which the water may be used are 5 acres, comprising portion of Spallumcheen Indian Reserve No. 2, situated near to the NW corner of Lot 105 Osoyoos Division of Yale District. The extent and location of the said irrigable lands are further shown in the said exhibit "A."

W.R.B. 1004 (1)—Conditional Licence—Irrigation—1M-927-5412

Licence Number 9444

File 066910

ORIGINAL

(8.) The said lands shall be properly prepared for irrigation and irrigated beneficially from the said works on or before the 30th day of September, 19 30.

(9.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached and made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

The said construction shall be commenced on or before the 31st day of March, 19 28.

The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller and shall be completed on or before the 30th day of September, 19 30.

(10.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(11.) This licence is supplementary to ---------- Licence No. ---------- for the diversion of ---------- acre-feet per annum from ---------- and Licence No. ---------- for the diversion of ---------- acre-feet per annum from ---------- but no more than ---------- acre-feet of water (exclusive of the quantity allowed for seepage and evaporation) may be diverted from all sources for use upon the lands described in clause (7) hereof.

(12.) This licence is subject to readjustment when hydrometric surveys have been made of the sources of supply mentioned in clauses (1) and (11) hereof and complete information obtained respecting the requirements of all lands watered therefrom and the licensee shall surrender the licence for amendment when called upon to do so.

(13.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part II. of the "Water Act," and shall be subject to all the provisions of said Act, including especially the provisions of section 74 thereof requiring the filing of proof of the completion of the said works and of making beneficial use of the water as authorized within the time herein prescribed.

(14.) This licence does not authorize the construction or maintenance of any works upon or the use or occupation of any lands belonging to the Crown in the right of Canada unless and until such construction or maintenance is approved or such use or occupation authorized by the Minister of the Interior.

Issued this 31st day of January, 19 28.
